Luciana Chamorro
Full Stack Developer

• Buenos Aires, Argentina • lucianachamorro87@gmail.com • Linkedin •Github

In Full Stack Development I discovered the perfect mix of what I am passionate about: tech and solving problems. I am experienced working with NodeJS, React, Redux, SQL as well as other technologies in the industry. Self-taught by nature I have creative thinking, enjoy teamwork, good communication skills, and autonomy.

Technologies

HTML, CSS, Javascript, React, Redux, Node.js, Express, Postgres, Sequelize, Scrum and agile methodologies.

Proyectos

Full Stack Web Developer - Marvel App   May. 22 - May. 22
Henry Bootcamp, Buenos Aires, Argentina.

- Develop and design React SPA that consumes Marvel Comics API. The purpose of the app was to offer the customer/visitor access to the catalog of comics and characters, and purchase a subscription for reading access.
- Plan and develop in frontend and collaborate with the backend generating the routes required to assemble the components in question and implement complementary technologies.
- Solve contingencies and plan to achieve the stipulated deadlines.
- Implement technologies such as React, Redux, CSS and libraries (Semantic UI, Material UI), Auth0, payment gateway with Paypal, backend developed in Node.js with Express. Database in PostgreSQL and Sequelize.
